

## Tongues

Deathstars

No prayers can reach me here  
No light can touch  
Among reduced Bibles, cigarettes and drugs  
I carve your name in my flesh  
Listen, Listen  
Then come and take my hand  
Tongues, Tongues  
Speak the little girls name  
Tongues, Tongues  
Shame, shame  
Tongues, Tongues  
Speak the little girls name  
Tongues, Tongues  
Shame, shame  
Innocence will never kiss me again  
Never lick my stitched scars  
Your lipstick's between the legs of hell  
Mixed with speed and blood  
Listen, Listen,  
Then come and take my hand  
Tongues, Tongues  
Speak the little girls name  
Tongues, Tongues  
Shame, shame  
Tongues, Tongues  
Speak the little girls name  
Tongues, Tongues  
Shame, shame  
The eggs grow in her open wrists  
It has started now
