My Favorite Coat

my favorite coat hangs in the hallway waiting like a good friend to keep me warm

i love my coat its sturdy, and versatile solving all my problems nirvana in the rain

and its raining and raining been raining for weeks now crying a torrent and the rain is washing us clean is washing us clean me and my coat

in my coat i am a superhero traveling through space and time impervious to pain

while its raining and raining... been raining for weeks now crying a torrent and the rain is washing us clean, is washing us clean

me and my coat
we are a symphony
blanketing the world outside
an oasis in the storm
an oasis in the storm

well its raining and raining been raining for weeks now crying a torrent and the rain is washing us clean is washing us clean and the rain is washing us clean is washing us clean

me and my coat
