

# Devourer Of Worlds

Debauchery

Coming from the void - The total fucking horror  
Searching for your species - You will cover in terror  
The devourer moves - Between the stars and hungers  
For all the flesh - Of all who lies before us

We are the new world order  
We need no law and no lawbreaker  
We are the brood with a single mind  
We are the devourer of humankind  
We are the devourer

Total nightmare from beyond the stars

We will rip apart with our claws  
We are all the creatures, the hellspawns  
We are all monstrosities united in a single swarm

Coming from the void  
Devourer of worlds  
Hive war  
It's the final hour - It's armageddon
