

## Killing In The Warzone

Debauchery

Dark legion is on the way  
Only the fools are here to stay  
Savage hunters stalk the night  
We are ready for the fight  
Rotten warriors, rancid flesh - World violation  
We are searching for your soul - World violation  
Zombie legions, demons - World violation  
Worst nightmare, alive - World violation  
Shoot them down, burn civilians  
We are the death's heads  
Killing peoples, burning cities, devastation  
Attracted by warzones we stalk our pray  
In metal beasts, titans for war and gore  
Hardened by unholy fires  
Forced with demonic powers  
We are marching to the war  
In space hulks from the warp  
Killing in the warzone
