

Murder Squad

Debauchery

Women are my livestock
Raped by biomechanic cock
We are fighters of hells arenas
Rapists of the viking vaginas

We are mighty warriors from the deepest pits of hell
Marching under blooddrenched banners and screaming bells

Here comes the brotherhood of the blood
The klan of killers - The murder squad

Here comes the brotherhood of the blood
The klan of carnage - The murder squad

Feed on the flesh of my brutalised victims
Taken from the daughters of Odin
They are strong and tough
And survive longer when it gets rough

We are the violent demonic bloodpack
You will die tormented and brutalised
On our torture racks
