

## Primordial Annihilator

## Debauchery

Demon gods from the Warp  
hunting for prey like a shark  
Coming forth bringing madness  
Massive butchery no less

Madness, killing, murder, war and wrath  
Carnage, butchery, armour of iron and brass  
Black leather, hooks, wings of steel  
Engines of fire and blood, with burning wheels

Primordial Annihilator

We were there before creation  
Arch enemy  
We want your termination  
Nightmare creatures with teeth and claws  
Making war upon you 'til you fall

Madness killing, murder, war and wrath  
Carnage, butchery, armour of iron and brass  
Black leather, hooks, wings of steel  
Engines of fire and blood, with burning wheels

Primordial Annihilator
