

## Take My Pain

Debauchery

Greetings from my soul  
Where all is dark and foul  
Violent self-destruction  
It's the only perfect option  
Forward through the trenchline  
When the bullet hits my spine  
Jump before the train  
It will not only crush my brain

Kill me - Take my pain

Murder and suicide  
That's the blessed hellride  
Murder and wrath  
It's my final breath  
Arteries cut open  
Or I burn myself in an oven  
I get myself hanging  
Or from a bridge springing

Kill me - Take my pain

This is the final chapter  
Time for death's stalking raptor  
It's the final hour  
Time for maggots to devour  
All the pain is gone away  
There is nothing more to say  
Now all my life is spent  
And I'm finally dead in the end
