

By My Side

Debbi

I know you always love me, always care.
I wanna take you with me, take you there.
I want to, be close to,
You'll be my perfect guy.
When I feel like smileing
You'll be right by my side.

(2x)Sun sun, stealing of the mind, well
slow down you moving too fast,
Right down, (right down) if you wanna drop by
Come give it I'll try
Till the stars're at the sky

I know you always love me, always care.
I wanna take you with me, take you there.
I want you, be close to,
You'll be my perfect guy.
When I feel like smileing
You'll be right by my side

(2x)Sun sun, stealing of the mind, well
slow down you moving too fast,
Right down, (right down) if you wanna drop by
Come give it I'll try
Till the stars're at the sky

Stars shine forever,
Sun starts to fall
We'll be together
till the end of a time

(2x)Sun sun, stealing of the mind, well
slow down you moving too fast,
Right down, (right down) if you wanna drop by
Come give it I'll try
Till the stars're at the sky

Sun sun....
Sun Sun...
Slow down...
Right down...
Come give it I'll try...
