

Comes Right Back

Debbie Gibson

No one else can make me feel
the way you do
and when you touch me
I reveal my heart to you
so don't walk away
until you hear me say
that there's a chance you take on me
is one more reason to believe

You've given me everything I want
baby nothing that I don't
I was runnin round in circles
now I found my way back home
cause I believe in destiny
and everything you do to me
comes right back
comes right back
comes right back

No one else can hold me
when i'm fallin
and it's you that pulls me back again
and everything you do
makes me want you a little bit more
you're here with me in my dreams
and everywhere I've ever been

You've given me everything I want
baby nothing that I don't

I was runnin round in circles
now I found my way back home
cause I believe in destiny
and everything you do to me
comes right back
comes right back
comes right back
to love

Never want to go back to
the things I used to do before you
you came into my life that day
I knew I'd never be the same
oh you're giving me everything I want
Nothing that I don't

I was runnin round in circles
now I found my way back home
cause I believe in destiny
and everything you do to me
comes right back
comes right back
comes right back
to everything i want

Nothing that I don't
I was runnin round in circles

now I found my way back home
cause I believe in destiny
and everything you bring to me
comes right back
comes right back
comes right back
to love
