Deep Down

Debbie Gibson

Deep down I feel it (yeah, yeah, yeah)
Burnin' in my soul (yeah, yeah, yeah)
And it won't let go
I'm losin' all control (control)
(Yeah, yeah, yeah...)
Sing about a love like this (this, yeah... whoa-oh)

Can you feel it? Well, if it means callin' you every night I'm gonna make sure it works out right 'Cause deep down I know you're the one I will talk 'til mornin' comes 'Cause deep down I know that you're the one (Ooo!) No one can say I didn't try Not gonna sit around and cry When I could be makin' promises - oh!

Feels so good, more than right I've got a feeling that someday There's gonna be a you and I

Deep down I feel it - burnin' in my soul and it won't let go Oh, I'm losin' all control I feel it Baby, you know it's there And it is so rare That I sing about a love like this

I'll admit that I've loved many people along the way It's only natural, so - hey! I can honestly speak my mind When I say that I adore you So send me a sign Your laugh keeps me on my toes Lately I've reached an all time low but you've turned that all around by just being you You made me think When I was on the brink of letting go

Burnin' in my soul and it won't let go I'm losin' all control I feel it Baby, you know it's there And it is so rare That I sing about a love like this

I can only hope and pray That we see eye to eye one day But it's hard to go against true gravity Every other word I say is Your name I can't help thinking about you, boy I hope my instincts are so right 'Cause I think I hit the bullseye....

I feel..... Sax solo go! I feel it - burnin' in my soul And it won't let go I'm losin' all control I feel it Baby, you know it's there And it is so rare That I sing about a love Deep down I feel it - burnin' in my soul And it won't let go I'm losin' all control Control - yeah, yeah Alright! Deep down I feel it - burnin' in my soul And it won't let go I'm losin' all control I feel it Baby, you know it's there And it is so rare That I sing about a love like this
