

# Don't Flirt With Me

Debbie Gibson

If you mean it - well, then you mean it  
If you don't - just stay away  
I don't want to be a penny  
That you saved for a rainy day  
Stop wishing it, take action  
I tell myself make your move  
It's just a kiss  
Better stop it, think logically  
Do I want a guy who acts like this

Don't flirt with me  
Say what you mean, don't hurt me baby  
Don't flirt with me  
I can't deny, I want you baby  
Don't flirt with me  
Don't play mind games  
Just stop, before someone gets hurt  
Don't flirt...

All I'm asking, is for the real thing  
No tricks are up my sleeve  
Be straightforward, ask your questions  
Tell me something I'll believe

My feelings are so strong  
But they hurt so easily  
Oh, I'm not asking for much at all  
Just a lifetime guarantee

I know that there will come a time  
When you will stop messing with my mind  
And when love is the message you understand  
I'll be here to give you some of your own medicine  
You'll be saying...  
Na na na...

Stop, stop, stop it boy  
Don't hurt me baby  
Don't flirt with me  
I can't deny, I need you baby  
Don't flirt with me  
Don't play mind games  
Just stop...

Just don't flirt with me (OK?)
