

Free Me

Debbie Gibson

Got a groove in my head and a feeling of chains
Releasing me from this bed of nails
Got a smile up my sleeve and wind under my feet
With the air I can set sail
You can only push me just so far
I've been a fool for too long
I know the words to this song
You might tear us apart
But I'll still have my heart

You might like to think you're strong
You can't break me, you can only free me
Think I'm stuck like glue? You're wrong!
You can't break me, you can only free this heart

There's a whole world of life with a promise of love
And you can't walk away though you feel your heart break
Suddenly freedom calls
I've been searching for something I've yet to see
I've been thirsting for what you can't be
Now I need to be free

You can only push me just so far
I've been a fool for too long
I know the words to this song
You might tear us apart
But I'll still have my heart
Dance your buns off...
