

Play The Field

Debbie Gibson

Loving can be simple
(Find a guy, settle down)
Can it be so simple
(Touch the sky, look around)
There is so much out there
(Wait your turn, stand in line)
There's a someone somewhere
(You will learn, you will find)
There is so much waiting for you
Listen here is all you must do

Play the field
You gotta look around
Lovin is so real
Don't just settle down
Just play the field
And leave what is behind
Don't just make a deal

See what you can find

If you want some loving
(You'll be loved, many times)
Pushing comes to shoving
(And enough chance to find)
Come on stop your crying
(Over one special boy)
Do a little lying
(Have some fun, don't be coy)
Don't waste your life on a dream
Take it to the opposite extreme

Come on have some fun

Don't waste your life on a dream
Take it to the opposite extreme

See what you can find

Just play the field
And let yourself go wild
Lovin is so real
You're acting like a child
So play the field
You're always on the run
Don't just make a deal
Come on have some fun

Play the field
On the run (on the run)
Make a deal
Have some fun

See what you can find

See what you can find

Play the field
Play the field
Play the field
