

Without You

Debbie Gibson

Couldn't go anywhere
Without feeling,
All alone inside
Could say I didn't care
But that would be a lie

I've seen a million faces
Passing through my eyes
But yours stays with me
And I hope you realize that....

Life wouldn't be the same without you
That whole world revolves around you
And when I've called on you
You were always there
Only a true friend can give me
All the joy each day you bring me
I have to tell you 'cause it's true
Life wouldn't be the same
Without you

I could turn
I could smile
I could cry for a little while
'Cause I know you'll always put me in my place
It's this thing friendship brings
A little of everything
But most of all a smile to my face

And I've seen a million of them
Passing through my eyes
But yours stays with me
I just hope you realize that....

Life wouldn't be the same without you
That whole world shines all around you
And when I've called on you
You were always there
Only a true friend can give me
All the joy each day you bring me
I have to tell you 'cause it's true
Life wouldn't be the same
Without you
