

Just When I Think I'm Over You

Deborah Cox

I used to think about back then
You walked in and said you're leaving me
Good bye, good bye
I don't know why I never woke up
Torch of your love
You'd given me had died
So I erased you from my mind, but I see

Just when I think I'm over you
I feel your body cry
Making love to you
Just when I think I'm over you
I hear a song that plays
That we once danced to

I used to think about how you'd pay
The way you would hurt
The way that'd say good bye, good bye
And all the lies, they did you no good
You'd live with yourself I hated you inside
'Cause you were over me

I feel the pain again whenever
I see you
Just when I thought that we're done
Baby, time has taught me you were the one

When you were there I didn't realize
All the things you meant to me
Till you were gone
And now you're just a memory

I'm still not over you
So let's dance, make 'em dance
Come on and dance
I'm still not over you

That we once danced to
So let's dance make me dance
Come on and dance
