

# Love Is On The Way

Deborah Cox

Don't you worry love is on the way  
I really miss you  
As we lay we'll rock the night away  
You just name the time and place

I know you miss me  
And I've been missing you  
Before you know it  
I'll be right there next to you

No matter the distance  
Your still in my heart  
Baby I'm with you  
Even though we apart  
So don't you worry

Don't you worry love is on the way  
I really miss you  
As we lay we'll rock the night away  
You just name the time and place

I'm never too busy  
When it comes to loving you  
Just hold on I'll be there  
I have plans for me and you

We can hide away in our secret place  
The two of us alone again  
A special place  
Where our love began  
So don't you worry

Don't you worry love is on the way  
I really miss you  
As we lay we'll rock the night away  
You just name the time and place

We can hide away in our secret place  
Just you and me, hide away late at night baby  
A special place where our love began  
That's where our love began
