

# My First Night With You

Deborah Cox

Yesterday was not just another day  
Not like before  
Yesterday I saw your smiling face  
Love walked through my door  
One precious moment changed my life  
One tender kiss made everything right  
One touch from you and this world was mine  
It was in your arms where I found forever

Cried my first tears of joy last night  
Heaven shined a light  
All my dreams came true  
My first night with you

Felt the sun shine so bright on me  
Chased the rain from my heart  
Through the storm, through the darkest night  
I found my brightest star  
One magic moment  
Made one magic night  
I fell in love with one look in your eyes babe  
I never knew, I could feel so alive  
Darling in your arms I could feel forever

One precious moment changed my life  
One tender kiss made everything right, baby  
One touch from you and this world was mine  
It was in your arms where I found forever
