

# Guardian Angel

Galbraith, Declan

Gather round everyone I'll tell you  
It's time to help a friend  
There's much love in the world  
So share it all around  
And together we'll win in the end

If we all lend a hand we'll make it  
And say thanks for what we pray  
Look around and you'll see  
Such beauty in this life  
So reach out and don't be afraid

Stay with me  
There'll be guardian angel  
Just have faith and you will see  
That one day  
You'll find your guardian angel  
Who will guide you on your way

Let's stand tall and be united  
What we need is our strength and love  
We can all live our lives  
And give thanks to one above

Stay with me  
There'll be guardian angel  
Just have faith and you will see  
That one day  
You'll find your guardian angel  
Who will guide you on your way

Don't let your dreams fade away  
Hold on and hear what I say

That someday  
There'll be a guardian angel  
Just have faith and you will see  
That one day  
You'll find your guardian angel waving back  
Who will guide you on your way

Yes I know  
There'll be guardian angel  
So have faith it will come true  
That one day  
You'll find your guardian angel  
Who will guide you on your way
