

Only One Woman

Galbraith, Declan

Ten little indians
Standing around
I bet there are many
So how would I know

As she was only one woman
Only one woman
And I've got a picture of the woman I love

Who sees my lovely face?
Who sees my shame
Nobody in the place
Can tell me her name

'Cause she was only one woman
Only one woman
And I've got a picture of the woman I love

Ten little indians
Now there are none
I bet there are many
And her love still goes on

'Cause she was only one woman
Only one woman
And I've got a picture of the woman I love

Well, she was only one woman
Only one woman
And I've got a picture of the woman I love
