

# Dimensions Intertwine

## Decrepit Birth

Incanting oaths of desecration... to condemn  
Summoning of the ancient powers... unto me  
Invoking of the light creation... to deceive  
Emptiness that once contained... nonexistence

I will thee

Essence of form  
Imagination  
Evolves malevolence  
Of my visions  
Of my destiny

Creations of the uncreation

My mind projects  
Neuro-electric impulses

Synchronized  
Creation of time  
Eternal life  
Becomes mortal  
Elements compress  
Manifest within my dream

Parallel lines of unnatural power  
Simbient balance of unstable forces  
The phenomenon of god is created  
Opposing powers come together... contradictions

Fusion of awareness begins  
Evolution through deception

Spoken oaths of desecration  
Mastering the ancient powers  
I am the light of creation... to deceive

Stimulation of life's  
Perpetual growth  
Behold worlds anew  
All turning upon a single axis  
Countless worlds fold together  
Paralleled within scale

Dimensions within dimensions  
Time equals sizes and distances squared  
Continual center of all worlds  
Where I am the bride to the physical planes  
Forever bound through -- the alchemies of will  
Imprisoned in the hallucination of  
Existence... a concept of my imagination
