

Fight to Win

Decyfer Down

Well you wanted a war you got it
Now I'm calling you out
And I'm standing my ground
Your strong arm and rampage is just
Driven by fear
And it won't keep me here

Looks like no way out
But I won't bow down
I'll push to break out

We fight
To win
We will find a way
We stand
To live
We will find a way

You turn to the next page to forget
what you've done
And it can't be undone
You try to save face while we
Sharpen the blade
A tip for the game

You've fallen down now
We won't let go
We won't go round
