

# Over My Head

Decyfer Down

Every time you come around again  
Feeding lies, feeling trapped again  
You will not make it, we'll complicate it  
The time is now  
You're going down

When I'm in over my head  
Gotta find another way out  
I should have been the one with the strength  
To turn from you when I was in doubt  
I'm not the willing one  
So back down, or give up now  
It's time to pack it up and move on  
This battle's already been won

Looking back, I know you're the one  
That's torn down, everything that we've done  
We will not take it  
Your time has faded  
The time is now  
You're going down

When I'm in over my head  
Gotta find another way out  
I should have been the one with the strength  
To turn from you when I was in doubt  
We're not the willing ones  
So back down, or give up now  
It's time to pack it up and move on  
This battle's already been won

Your time isn't now  
You're going down  
Your time isn't now  
You're going down

When I'm in over my head  
Gotta find another way out  
I should have been the one with the strength  
To turn from you when I was in doubt  
We're not the willing ones  
So back down, or give up now  
It's time to pack it up and move on  
This battle's already been won
