

Some Things Never Change

Decyfer Down

I've built a life for me that's bittersweet
Living a way that I just can't redeem
I've been believing that I'm all on my own
Searching for answers in places I don't belong

Some things never change
When it comes to you
When it comes to love
I fall on my face and there you are to pick me up
I guess some things they just never change

I've always been one to question a simple need
But you just desire to meet them and exceed

Some things never change
When it comes to you
When it comes to Love
I fall on my face and there you are to pick me up
I guess some things they just never change

It seems like these days
I need more time on my knees
'Cause on my own
I just can't be what I should be

Some things never change
When it comes to you
When it comes to Love
I fall on my face and there you are to pick me up
I guess some things they just never change
Some things they just never change
Some things they just never change
