

Westboro

Decyfer Down

Hey man, that's my brother's grave you're spitting on
Hey man, this is hallowed ground, you don't belong
Just go back to Westboro baby, where they love to hate
Just go back to Westboro baby, the devil said you can stay
In hell it's just the same

Hey man, that's my brother you've condemned to burn
Hey man, there's no signs of love, anywhere you turn
Just go back to Westboro baby, where they love to hate
Just go back to Westboro baby, the devil said you can stay

Just go back to Westboro baby, where they love to hate
Just go back to Westboro baby, the devil said you can stay
Just go back to Westboro baby, where they love to hate
Just go back to Westboro baby, the devil said you can stay
In hell it's just the same
In hell it's just the same
