

Cry You A Rainbow

Dee Snider

Ooh, our love is strong
Is it stronger than the pain all around us
Things we never thought we'd see
Ten thousand kinds of misery

It's been bad for much too long
How much longer will we stand by complainin'
How our lives are so damn tough
Will we ever have enough

Will there ever come a day when it all gets swept away
Will I ever find the words to say
What I'm feelin' in my heart 'fore it finally comes apart
Well I know where I'll start

I'm gonna cry you a rainbow
Gonna wash away your fear and shame
Gonna cry you a rainbow
Want to wash away your pain

Ooh, we know it's wrong
Is it wronger to look on and do nothing?
Telling ourselves that we care
Clearly not enough to share

Is it down to me and you, it's so hard to face the truth
Is there really something we can do?
Look around at those who hate, smiling as they sit in wait
Before it gets too late

I'm gonna cry you a rainbow
Gonna wash away your fear and shame
Gonna cry you a rainbow
Want to wash away your pain
Gotta wash away your pain

Will there ever come a day when it all gets swept away
Will I ever find the words to say
What I'm feelin' in my heart 'fore it finally comes apart
Well I know where I'll start

I'm gonna cry you a rainbow
Gonna wash away your fear and shame
Gonna cry you a rainbow
Want to wash away your

Cry you a rainbow
Gonna wash away your fear and shame
I'm gonna cry you a rainbow
Want to wash away your pain
Gotta wash away your pain
