

Uh Huh Huh

Dee Snider

Uh huh huh, uh huh huh
Uh huh huh, uh huh huh
Check this out

I've been around, I've been back
Lost and found and back on the track
I said oh baby, there's a world I'd never known
Angel came, saw her face
Just one look and I was lost in space
I said oh baby, never leave my head alone

Well do it to me once, do it once again
My my my, hope this dream don't end

Sweet little girl, little thing
Rock my world, how you make me sing
I said oh baby, put me in the pleasure zone
Lover girl, knock me out
Little girl, you make me scream and shout
I said oh baby, it's a world I've never known

Do it to me once, do it once again
My my my, hope this dream don't end
Go

Do it to me once, do it once again
My my my, hope this dream don't end

Go
