

Thank You Everyday

Deee-Lite

I was walking around
Looking at the ground
You're the flower
Between the cracks
That I found
Like a buttercup
Under your chin
You shine so bright
And cheer me up
I want to thank you everyday
For sharing with me
I want to thank you everyway
For sharing with me me me
You put me on top of the world
Right next to you
My lover you are my pearl
I love you you you
All night
All night
All right
All night
Standing in the shade
As flowers fade away
I am a fire sign
Won't you feel my solar power
My love takes you higher high higher
Watch the dandelion
Whose petals are flying
Sip the spring whispering
Through my grapevine
I want to thank you everyday
For sharing with me
I want to thank you everyway
For sharing with me
We're all part of the world
Joined in a song
I'm so thankful we get along
I love you you you
All night
All right
Riding with the rhythm
Every nation with them
Love intoxication
Loving celebration
