

Number One

Deep Blue Something

This is great
we will learn from our mistake
don't feel ashamed cuz you're not the same
"well yes - I cried...
almost every night"
I guess that's it I'll say goodbye

by the way
did you call me for some reason?
just to say - hey
or you're the number one

well alright
I said that suits me just fine
but I can't say that I'm glad you called
in fact you call is at the worst time of all
and she told me to tell you hey

oh, by the way...

we're ok
we will find a way
take a flight and make the coast
we'll change our name
and we will play the game
we will invent a brand new note
