

## Someday

## Deep Blue Something

When will this be done  
Well, it won't be my son  
We all did it, so do it  
And no one said this would be fun  
Someday, someday  
She will show me, she will show me  
The easy way

Someday we'll fly high  
But not for the best days of your life  
And don't ask me, don't ask me why  
We all did it, it must be right

I see these people everyday  
And some I like and some I seem to throw away  
Don't push it, don't push me  
And with her everything's okay

Someday we'll fly high  
But not for the best days of your life  
And don't ask me, don't ask me why  
We all did it, it must be right

Someday, someday  
She will show me, she will show me  
The easy way

Someday we'll fly high  
But not for the best days of your life  
And don't ask me, don't ask me why  
We all did it, it must be right
