

## Down to the fire

Deep Insight

For too long I've been living out of touch  
I pushed away the one I loved  
Now nothing is all I've got  
It's all I've got

My limit is reaching the top  
I'm falling backwards  
I've filled my soul with fractions

Down to the fire  
And I'm throwing it all in  
It feels like redemption  
When I'm throwing it all in the pit  
I had a life with ambition  
But I'm throwing it all in  
You gave me devotion  
Now I'm throwing it all in the pit

I've been living the life of a king  
But I'm as hollow as this ring  
And the promises we made  
I guess the vows have changed  
Never wanted for us to die  
But I'm falling backwards  
I've filled my soul with fractions

Down to the fire  
And I'm throwing it all in  
It feels like redemption  
When I'm throwing it all in the pit  
I had a life with ambition  
But I'm throwing it all in  
You gave me devotion  
Now I'm throwing it all in the pit

They said don't play with fire  
I chose the path of liars  
I've killed and I've desired  
Oh God, help me

I've stealed and I've devoured  
I chose the path of cowards  
I lost all of my power  
Oh God, help me
