

Paint your pleasures into a picture  
I bet it would be green  
Green like a summer field  
I'm proud not to be allowed to carry a gun  
Fire a gun, I say

Make me understand what it is  
That makes you feel safe  
Make me understand what it is  
That makes you feel safe

The right that makes you feel safe  
Makes people die today  
I just can't get it  
Don't you see that you need to  
Get rid of some iron to be free

Finally the borders are fading  
You and I we're already there

Finally the borders are fading  
You and I we're already there

Violende is gonna bring you down  
Oh my God, what should we do?

Make me understand what it is  
That makes you feel safe  
Make me realize what's the point of  
Snatching up - if you cant enjoy the meal
