

## Hurricane Season

Deep Insight

Round and round again  
You must feel pretty brown spin to your end  
Driving from dusk to dawn  
Searching for another teenage relation

Same old people, same old town  
Same old question swerve  
People spending all their time  
Living without life

You have to have the right style and a haircut  
to be able to join their little club  
you come here get rid of your past  
this town gives you a free banquet salvation

Same old people, same old town  
Same old question swerve  
People spending all their time  
Living without life

Same old people, spending their time  
Living without life  
Same old people, spending their lifes  
Living without time

Leaving it behind now  
I'm free now  
Leaving it behind now  
I'm fine now  
I'm fine now
