

## One step at a time

Deep Insight

It's hard to fall asleep when  
You dream your life away  
Your home is a wreck but your love is not dead  
The faint-hearted dwell in sorrow  
You'll rest your eyes tomorrow

One step at a time  
Something's gonna change  
Baby, look in my eyes  
I'm the one to blame  
I can make it right  
I'm not gonna leave you  
Crying alone in the night

I was born to say I'm sorry  
I never learned to take life as it comes  
My home is a wreck but my love is not dead  
The faint-hearted dwell in sorrow  
I'll rest my eyes tomorrow

One step at a time  
Something's gonna change  
Baby, look in my eyes  
I'm the one to blame  
I can make it right  
I'm not gonna leave you  
Crying alone in the night

We placed all our bets  
Praying for a change  
Now look what we get  
Nothing really changed  
I can make it right  
I'm not gonna leave you  
Crying alone in the night

At times like these I'd give anything  
to go back and start over again  
At times like these I could waste all my hate on you  
but still it won't change one thing  
Still nothing, nothing can take me away from you  
Away from you
