

I've got it all figured out
I think I know how to work it out
I hope you hear what I've got to say
I'm looking for the satellite
In the sky there's a guiding light
I hope it gives my love to you
All the things I need to say to you
Oooh, but I can't find my way to you

Worlds apart we drift alone
A thousand miles away from home
There's a star that keeps on lightning my road
Plea to a satellite
My message goes out through the unknown
To a place that I can't reach on my own
Plea to a satellite

I made it through the hardest way
Being here without your love
I hope you hear what I've got to say
Like Galileo with his scope
I found a star of my own
I thought I'd name it after you
All the things I need to say to you
Oooh, but I can't find my way to you

Worlds apart we drift alone
A thousand miles away from home
There's a star that keeps on lightning my road
Plea to a satellite
My message goes out through the unknown
To a place that I can't reach on my own
Plea to a satellite
