Have you ever had a woman that could make you crazy Have you ever had a woman that could drive you mad Have you ever had a woman give you so much trouble And the best lovin' you ever had

My friends all say I'm losing it big time
But I know where I've got to go
I'm going back there again
I'm going back there again
I'm going back there again
Back to the house of pain

Have you ever had a rock that just keeps on rollin'
Have you ever seen a train comin' down the track
Have you ever jumped into the cold, cold never
And know there's no turning back

My friends all say I'm crazy, baby
But I know where I've got to go
I'm going back there again
I'm going back there again
I'm going home
Back to the house of pain

Have you ever had a weight that was much too heavy Have you ever had a burden that was yours alone Have you ever spent a night when you keep on waiting Staring at the telephone

My friends all say I'm crazy, baby But I know where I've got to go I'm going back there again I'm going back there again I'm going back to my woman Back to the house of pain Then I run away

You'll always be my inspiration I love you from afar
