

# Never Before

Deep Purple

Somebody Somebody  
Come to my side  
I'm tired I'm crying  
I'm sick inside  
My woman that woman  
Just wasn't right

Help me now please my friend  
I never felt so bad before  
Never never before

So funny so funny  
Just like a show  
One name two people  
All in a row  
Somebody Somebody  
Someone must go

Help me now please my friend  
I never felt so bad before  
Never never before

I was hurt when I was younger  
By a woman who was cold  
She took my name  
She took my body  
And she threw away my soul

Can't hide I can't hide my misery  
I know my sorrow won't set me free  
She did it d'you see she did it to me

Help me now please my friend  
I never felt so bad before  
Never never before
