Our Lady

Deep Purple

Thinking out of line just to make the sun shine Anyway I can be like you Fighting with the truth Trying to hide a fool in a fantasy I'm dreaming, lay me down and take me now Our Lady of the skies

Hiding in the sun like a loaded gun reality Aiming high at my dream But I can get along She makes me strong, anyway I'm dreaming and there is no other way Our Lady of the skies

Flying in the sky with a bunch of high fidelity
I can hear your song
Offer me a ring just to show me your sincerity
I'm dreaming, let me go
Our Lady of the skies
