

Things I Never Said

Deep Purple

Don't get me started, let's get it right
There's no use to talk about it deep into the night
Don't ask about secrets I could tell
I'm gonna keep them to myself

No bad decisions, no good advice
No time to think about it even once or twice
No second chances looking down the road
When there's the only way, only way to go

Oh it makes me wonder
What's going on inside my head
Well could it be the pressure that I'm under
Makes me forget the things I never said

I can't remember, I can't forget
Take it from me there's not a moment of regret
Since the day I learned to tie my shoes
I found it hard to spread the news

Oh it makes me wonder
What's going on inside my head
Well could it be the pressure that I'm under
Makes me forget the things I never said

It's hard to swallow, it's hard to take
When I think about it now my knees begin to shake
Never came to me to mention at the time
Tell the truth it never crossed my mind

Oh it makes me wonder
What's going on inside my head
Well could it be the pressure that I'm under
Makes me forget the things I never said

Oh it makes me wonder
What's going on inside my head
Could it be the pressure that I'm under
Makes me forget the things I never said
