

American Dream

Deepfield

One two
One two three four

You fill my cup
I wanna drink it all up
Until I can't see straight
I can't feel anything
So get up and get over here

Hey!
Come down in a minute
Let's all get fucked up
Baby come on
Let's all fall apart at the seams
It's the American dream

I don't worry bout the mess I made
Because I just got paid
And I wanna get sideways
Oh yeah can you feel it
Sinking in
So get up and get over here

One two
One two three four

Hey!
Come down in a minute
Let's all get fucked up
Baby come on
Let's all fall apart at the seams
It's the American dream

You fill my cup
I wanna drink it all up
Until I can't see straight
I can't feel anything
It's the American dream

Get up and get over here
Get up and get over here
Get up and get over here
Get up and get over here

So get up and get over here
So get up and get over here

Hey!
Come down in a minute
Let's all get fucked up
Baby come on
Let's all fall apart at the seams
It's the American dream

Hey!
Come down in a minute
Let's all get fucked up

Baby come on
Let's all fall apart at the seams
It's the American dream

You fill my cup
I wanna drink it all up
Until I can't see straight
I can't feel anything
It's the American dream
