

## Choir Of Angels

Deer Tick

Sing choir of angels  
Sing through the night  
I'll be still  
I'll be quiet

They took my body  
They robbed me blind  
There's no turning back now  
No use in crying

Every lonely road is behind me  
That led me through the changes I don't feel  
And I lost sight of flesh and bone  
Little I knew, I was going home

Sing choir of angels  
Sing me to sleep  
Sing soft and sweet  
I'm yours to keep

I fought their battles  
and I gave my life  
For peace and quiet  
For pain and strife

Now every lonely road is behind me  
That led me through the changes I don't feel  
And I lost sight of flesh and bone  
Little I knew I was going home
