

The Bump

Deer Tick

Got a lust for life
And a dangerous mind
In my trail of dust
Who knows what you'll find
Well, I can take a tree
And tear it from it's roots
If you see me
I suggest you mooove

We're fuck up men
We act like kids
We'll face the music
Next time we roll in
Give me a spark
You get an atom bomb
Give me some pills
And I can stand up
I'm at your function
And I'm an animal
I'm in your town
Got a warrent out.

I got a name
They call me aqua velva
One night with me
Is gonna mess you up
I saw the light
And I ran like a fool.
I'm a drunken devil
And (not sure what he says here)
