Never Stops

Deerhunter

I had dreams That frightened me awake I happened to escape But my escape Would never come Would never come Would never come Would never come I had plans To go away for days To try and risk a pace That haunts my days That haunts my days Haunts my days Haunts my days Haunts my days I love I love I love Winter In my heart It never stops It never stops Oh, winter Oh, winter Oh, winter Oh, winter It never stops It never stops It never stops It never stops It never I love I love I love
