Stagefright

Def Leppard

I said Welcome to my show
It's just a-you and me baby
We got the whole damn night to go

You're holding out on me, while I'm on fire
If you can't stand the heat, then you should try
Victim of my vices, you know you are
You skate on ice to paradise, stairway to the stars

Stagefright all night, won't you let go All night Stagefright, on with the show

You come on like a lady dressed to kill

Never thought you could be caught, but you will

A Little understanding, a little love

A headline act around the back, is what I'm thinkin' of

Stagefright All night, Won't you let go All night Stagefright, On with the show Stagefright All night, You're dream starts today All night Stagefright, is only a heartbeat away

You're going for my head, you're going down Gettin' good at being bad, you're hangin' round A fun inspired asylum, toys for the boys Love on the rocks, forget-me-nots, you got no change
