

## Turn to Dust

Def Leppard

The concentration drifts  
In and out of me  
Conversation slides away  
Turn and face the change in apathy  
Take a rise to fall

Won't you save me  
Don't you blame me  
I got the feel that I'm gone - Turn to dust

Sentence  
Rape me  
Segregate me  
I got the fear that I am gone - Turn to dust

Slave or sympathy it atrophies  
Save but ancient hearts  
Hiding scars and knives in symphonies  
Still we rise to fall
