

# Calculated Barbarity

## Defeated Sanity

Human creativity  
Spawning amorality  
Altruism and compassion  
Ignored in times of collision

Decimation in development  
Maximum effectivity is desired

Taxpayers assure my affluence  
Greedfilled, mind processing atrocity  
Blueprints on cold white paper  
Soon a bloodred reality

Metallic entity splits into  
Little pieces violently penetrating flesh  
Lacerated mortally  
A slow death among the remains of those you cherished

Survivors manifoldly wounded  
Entire body metal stuffed  
Doctors unable to help  
Surgery would become catastrophe

Horrid excruciations as you wish for death  
Spoilt meat, hopelessly vegetating  
Euthanasia, acts of mercy  
Carried out by your loved ones

Inhalation of toxicity  
Chest starts to collapse  
As you lose control of bodily functions  
Vomiting, defecation

Body twitching, convulsive spasms  
A torturous prelude to death  
Becoming comatose  
Victim dies from suffocation

Sermons of wisdom  
Lulling the masses  
Women and children butchered  
Under the cloak of legality  
Pulverized  
Liquefied

A dormant menace  
Lethal remnants blowing apart  
Abandoned naked infants  
Forced to dwell the wasteland
