

Warfare

Defiance

Power and profit are the law of the land
Those who live by the knife will die by their own hand
But the rich aren't the ones who die on the front lines
And the system maintains whether we live or die

[Chorus]

Your god and leaders and your shit fucking system
Create warfare, warfare
The rise and we fall, they prosper, we perish
It doesn't matter whether we live or die
In their warfare, warfare
This is warfare

there's always a target to keep us divided
The fucking scum in power won't stop till we're all dead
Insane world leaders still wage wars for profit
You can protest and protest but it won't fucking change!

From the dawn of time it's always the same
The threat of your freedom leads to financial gain
But the rich aren't the ones who die on the front lines
Yet their system maintains whether we live or die

This is
Warfare, Warfare
Warfare, Warfare
Warfare, Warfare
Warfare, Warfare

The rich aren't the ones who die
On the front lines
And their system maintains whether we live or die

This is warfare
