

Metalbounded

Defleshed

Sword by the blade of metal
Steel runs my veins forever

We are lords of this mighty ground
That's because of our metalbound
Forever and ever again
This time is never to end
Metal our blood contains

United we are standing
Guard our way
Our might is expanding
We came to stay

Sword by the blade of metal
Steel runs my veins forever

Come on...

United we are standing
Guard our way
Our might is expanding
We came to stay

We are lords of this mighty ground
That's because of our metalbound
Forever and ever again
This time is never to end
Metal our blood contains
