

## With a Gambrel

Defleshed

I hang'em high  
And watch them die  
A collection of ghosts  
Me be their host  
They will forever remain in my domain  
And I guarantee they won't be free  
Cleopatra asked me which way  
I told her she's welcome to stay  
I have this thing with corpses  
Communicate  
Devastate  
I have this thing with corpses  
Maculate  
Ruminate  
Cleopatra told me today  
Them XTC's making me gray  
A gambrel so chic  
Ask me how thick and sick it is  
Familiar with pain, entertain  
I'm telling you this...  
Now as your body will collapse  
And I can see it from above  
That your organs will perhaps  
Land on the people that you love  
...score...gore...  
I hear people shout and scream  
Due to your brains comes out like cream  
Cleopatra kissed me goodnight  
The walls comes in liquid and light  
I have this thing with corpses  
Communicate  
Devastate  
I have this thing with corpses  
Maculate  
Ruminate
