

Battle-Axe

Deftones

I want to sleep if you are awake
Still making you believe that you aren't at all crazy
And if you don't believe I think you should
You make me so proud

Still you love to think you have always been this way ... but y
ou're all wrong
And you only sleep when you've lost cause
Well I still believe the cause was always me

And if you don't believe I think you should
You make me so proud

Still you love to think you have always been this way
Well I'd love to think you will someday feel the same
And you love to think it will always...always...
If you still believe it was always be this way... well you're a
ll wrong
