

## Gore

Deftones

Deep in this dream we are locked in  
I've pulled you in  
Now our bodies are wet  
There is blood on the beaches  
I brought you into this don't deny yourself

Smile, now you're all set  
Surprise, you're now one of the gang  
Take what you want to take  
Surprise. you're now running the game

We lay in the gore of our voices  
Oh we writhe in them  
At night we assemble the hunt for our prizes  
I hooked you in the way  
You should try yourself

Smile now you're all set  
Surprise you're now one of the gang  
Take what you want to take  
Surprise not you're running the game

We'll slip right through these gates together someday

Lost in these dreams we arrive in  
I know you well  
Develop the taste that will tie us together  
I put you in this game  
Just remind yourself

Smile, now you're all set  
Surprise, you're now one of the gang  
Take what you want to take  
Surprise, you're now running the game  
Smile, now you're all set  
Surprise, you're now one of the gang  
Take what you want to take  
Surprise, you're now running wild

We'll slip right through these gates together someday  
We'll slip right through these gates together forever

Smile, now you're all set  
Surprise, you're now one of the gang  
Take what you want to take  
Surprise, you're now running the game  
Smile, now you're all set  
Surprise, you're now one of the gang  
Take what you want to take  
Surprise you're home
